

# Job Application

Dear Hiring Manager,

I am writing to express my interest in any suitable entry-level positions in your esteemed organization. As a BCA student with practical experience in Web Development and a growing foundation in Cybersecurity and DevOps, I am eager to contribute my skills to real-world projects and continue learning.

I have developed and hosted a personal portfolio website using React and Vite, showcasing my web development skills. My backend experience includes working on authentication systems with Node.js and MongoDB. Furthermore, I've begun exploring the crucial aspects of Cybersecurity and DevOps, experimenting with network scanning tools and container basics with Docker.

I am a fast learner, dedicated, and passionate about building technology that solves problems. I am confident that my skills and enthusiasm align well with the needs of your company.

I would welcome the opportunity to contribute to your team and discuss how I can help. Thank you for your time and consideration.

Sincerely,  
Deep Baidya

## SUMMARY

🚀 Aspiring Web Developer | UI/UX Designer | Cyber Security Enthusiast! Hello! I'm Deep Baidya, a passionate Web Developer, UI/UX Designer, and Cyber Security Enthusiast currently pursuing BCA at MAKAUT, JIS Group of Colleges. I have a keen interest in designing user-friendly digital experiences, developing secure applications, and exploring the world of cybersecurity. What I Do: ✅ Web Development – Building interactive and responsive websites using HTML, CSS, JavaScript, React.js, and Node.js. ✅ UI/UX Design – Crafting seamless user experiences with Figma, Adobe XD, and Sketch. ✅ Cyber Security – Learning ethical hacking, penetration testing, and network security to build safer systems. ✅ Automation & AI – Experimenting with smart home systems, automation tools, and AI-driven chatbots. My Mission: I aim to blend technology and creativity to develop efficient, secure, and visually appealing digital solutions. Constantly learning and evolving, I love collaborating on exciting projects and solving real-world challenges. 🤝 Let's connect and create something amazing together!
